Professional Summary

BCA graduate currently pursuing my MCA, with a keen interest in Artificial Intelligence, Generative AI, and API-driven development. I am passionate about writing clean, efficient code and building structured, reliable solutions. I am currently seeking internships and impactful projects to grow as an AI/ML professional.

Work Experience

Independent Projects & Training

2024 – Present

AI Evaluation & Data Handling

- Processed and validated structured data from external APIs; ensured accurate input handling and consistent output formatting.
- Applied prompt engineering techniques to generate and refine structured AI responses.
- Performed manual data validation, verification, and formatting across project datasets for completeness and correctness.
- Followed detailed specifications and structured guidelines – reflecting annotation and AI evaluation workflows.

Projects

Morphix – Mixed-Media Video Studio | *Next.js, TypeScript, FFmpeg, PostgreSQL, Redis, Python* | [GitHub](#)

- Built a full-stack video processing platform with a pluggable AI-provider interface (ComfyUI integration with mock fallback), using an asynchronous job pipeline (Redis streams + Python worker service) to orchestrate FFmpeg-based style transfer and video recompilation via REST API.

Cyanotype – Photo-to-Sun-Print Generator | *JavaScript, HTML, CSS* | [GitHub](#) | [Live Demo](#)

- Built a client-side image-processing tool that converts photographs into cyanotype-style sun-prints, with adjustable exposure, toning, and paper-edge controls, real-time preview rendering, and downloadable print export, deployed as a live static site via GitHub Pages.

Aerophone – Gesture Theremin | *JavaScript, Web Audio API, HTML, CSS* | [GitHub](#) | [Live Demo](#)

- Built a web-based gesture-controlled instrument that converts real-time cursor/touch input into audio using the Web Audio API, featuring an oscilloscope-style waveform display and a responsive, accessible instrument-panel UI validated across major browsers.

Personal Portfolio Website | *HTML, CSS, JavaScript* | [GitHub](#) | [Live Demo](#)

- Designed and built a fully responsive personal portfolio site with consistent layout across desktop, tablet, and mobile breakpoints, deployed via GitHub Pages with an automated CI workflow.

Skills

Core Skills: Python – Beginner (Data Science Basics), API Data Handling, Data Entry & Verification, Git & GitHub, HTML, CSS, JavaScript, Reporting & Documentation, AI Model Evaluation (Entry-level), Data Quality Assurance & Validation, Structured Data Processing, Microsoft Excel (Data Handling & Reporting), Prompt Engineering (Basic).

Certifications

Python for Data Science, AI & Development – IBM via Coursera	Jul 2024
Introduction to Generative AI – Google Cloud via Coursera	Aug 2024
Prompt Engineering for ChatGPT – Great Learning Academy	Nov 2024
Introduction to Cloud Computing – IBM via Coursera	Jul 2024
Introduction to Front-End Development – Meta via Coursera	Aug 2024
Foundations of Digital Marketing & E-commerce – Google via Coursera	May 2024
AMCAT: Data Processing Specialist · Software Dev Trainee · English Proficiency – SHL	Jun 2024

Education

Chandigarh University, Uttar Pradesh

2026 – 2028

MCA (In Progress)

University of Engineering & Management, Kolkata

2022 – 2025

BCA – CGPA: 9.01

Agrasain Balika Siksha Sadan, Kolkata

2020 – 2022

12th Standard (ISC) – 88%

Stepping Stone High School, Kolkata

2007 – 2020

10th Standard (ICSE) – 84%
